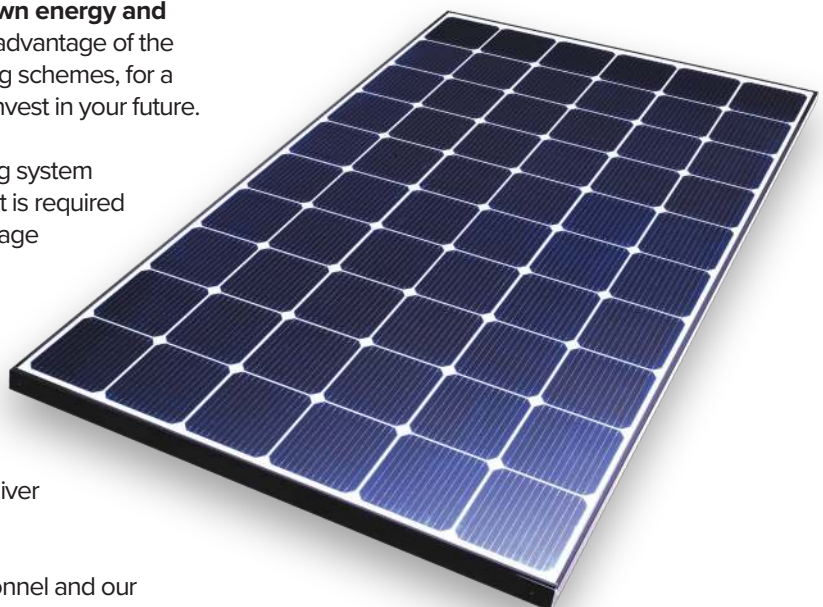

PHOTOVOLTAIC

Grab the opportunity to produce your own energy and reduce your electricity bill to zero. Take advantage of the currently offered governmental Netmetering schemes, for a solid investment. Invest in green energy ...invest in your future.

Our Solution includes a 3KWatt Netmetering system capable to produce 100% of the energy that is required by a small to medium household. The package is upgradeable to 5,2 KWatts if requested.

We are consolidated with the most well established, well known photovoltaic manufacturers like Fronius, SolarEdge, SolarWatt, REC. Our offered products are manufactured under the strictest most demanding International Standards and deliver the best quality, efficiency and durability.

Our expertise in the field, well trained personnel and our commitment to perfection guaranties that we will deliver the best result and meet your requirements and expectations.

SECURITY

What could be more important than protecting your home and family? Visonic offers complete solutions for protecting your house and everyone in it from intrusion, fire, floods, carbon monoxide, gas leaks and other hazards.

Visonic products are security professional's choice. Visonic alarm systems and peripherals use a combination of advanced communication technologies to fully answer consumer demands for cost-effective, reliable wireless intruder alarm systems.

Our Solution includes a Power G Power Master 10 main control unit with a built-in LCD Screen, Keypad, Siren and Dialer. In addition it includes a wireless PIR, a wireless magnetic contact, a GSM and a keyfob.

The system is easily upgradeable if requested and will be installed, programmed and delivered fully functional, by our expert engineers.

CCTV

Being far ... feeling close. A CCTV is what you need to keep things in place. Doesn't matter if your miles away, you can still keep an eye in your most precious people and assets.

Our HikVision comprehensive solution includes four high definition color cameras with night vision and a four channel High Definition DVR, that is capable to

record and store video for more than 15 days. It can be easily accessed and monitored via Android and i-OS applications.

The system is easily upgradeable if requested and will be installed, programmed and delivered fully functional, by our expert engineers.

*Internet service and wiring are not included.

HIKVISION

VIDEO DOOR PHONE

Let only those that matter in. Our Video Door Phone Solution offers peace of mind as you will be able to monitor, view and listen to people that request or attempt to invade your premises and compromise your privacy and safety.

Our Solution includes a 7 inch Color Indoor Monitor and a Color Outdoor Vandal Proof Door Unit.

The system is easily upgradeable if requested and will be installed, programmed and delivered fully functional, by our expert engineers.

*Wiring is not included.

GATE AUTOMATION

Security Starts at your gate. Our Gate Automation Solution offers peace of mind as you will be able to monitor people that request or attempt to invade your premises and compromise your privacy and safety.

Our Solution includes a sliding gate motor or two wing gate motors, two keyfobs, a pair of photocells, a strobe and an antenna.

We are consolidated with the most well established, well known Gate Automation Manufacturers like Allmatic, Somfy, Proteco. Our offered products are manufactured under the strictest most demanding International Standards and deliver the best quality, efficiency and durability.

The system will be installed, programmed and delivered fully functional, by our expert engineers.
